Assessment

Assessment #1 dysuria. Assessment #2 penile discharge.

Patient is adamant that he is not at risk of STI's. He will be placed on Bactrim pending the urine culture results. He will be given a gram of ceftriaxone 1 g. He is to continue to hydrate and will be notified of those culture results hopefully within 48-72 hours. Follow-up if his symptoms should worsen.

Patient Targets

Encounter Instructions

Goals

Date

09/15/2018 Start your oral antibiotic today. Make sure you take all of it. Urine culture is pending and we will notify you of those results as soon as they are available, usually 48-72 hours. If you should continue to exhibit symptoms or worsen please make sure you do follow-up. Continue to push fluids. Treat fever with Tylenol and/or ibuprofen.
